After these have been achieved awards are split into flat and jumping, allowing all riders to specialise in what they want.

Each rider will have their own tracking sheet held by the instructor and during lessons instructors will assess riders in an ongoing process; riders have to achieve the standard on 3 occasions. When achieved the tracking sheet will be ticked and dated by the instructor.

Riders are required to ride to the correct standard on different horses/ponies and they may not achieve immediately, as it takes time to learn all the skills and show the correct amount of competency on different animals.

When completed the tracking sheet will be given to the rider and he or she will be able to go to reception where they can purchase their certificate and rosette at a cost of £4.50.
